The Honorable Sidney P. Osborn
Governor of Arizona

My dear Governor Osborn:

This office was informed by the reporters from the Newspapers that the Senate Armed Services Committee had recommended that Fort Huachuca be given to the University of Arizona.

This office in a telephone conversation with Senator Carl Hayden's Office was informed that this report was erroneous and that the freeze on Fort Huachuca still existed and would not be off until March 15, 1948 and there was a possibility that this freeze would be extended.

This office will keep you advised on all developments on this particular installation.

Very truly yours,

Robert O. Kelly
